Adopt - A - Hydrant Program

Adoption Options:

1. Adopt 4 fire hydrants and receive all paint materials free.
2. **Paint:** The **only** paint selected for hydrant painting is:

Sherwin Williams All Surface High Gloss Enamel Safety Red A 41: (water based, soap and water cleanup).

Paint is available from the Brunswick Fire Dept. 4383 Center Rd. Monday-Friday 8 AM-5PM

No other paint is permitted on the hydrants due to past paint applications.

Hydrant preparation:

1. Wire brush any loose paint and rust; hydrant must be clean and dry.
2. A light coat of metal primer may be used on heavily rusted areas.
3. Brush a light coat of paint over hydrant barrel and caps; avoid excess paint that will accumulate on hydrant threads. **Caution: (this will make hydrant unusable for fire department)**
4. After first coat dries apply second coat as needed for complete coverage.
5. Notify fire department when finished.

Thank you for helping us, help you.

I/We would like to adopt the hydrant(s) located at:
